

GARNIER VILLAGE HALL ECCLES

Important Notice

A recent survey of the Garnier Hall has uncovered a serious structural fault.

As a result, our insurers have withdrawn Public Liability cover, until this is rectified.

We have engaged a Structural Engineer whose report should be available in a couple of weeks.

Until then we have no choice but to close the premises. These are now out of bounds. Notices have been posted to that effect.

We ask for your co-operation.

We will issue updates as appropriate and post on social media & notice boards.
